

Introduction

Since 5 years we are organising international press tours together with our partners in the AmsterdamConnects press association and together with a large group of friends that is active in the art, music, design, fashion, architecture and creative sectors in Amsterdam. .

In 2017 we wil extend our co-operation with these partners and friends also to co-creation of tours. For that we use the same approach as in our international press tours: associative tour creation. You might be surprised by the original results.

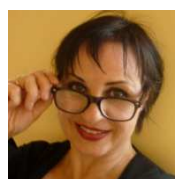

Meet our friends designers

All participating friends are handpicked by Lilian, as we will only work with people that have a story to tell, know Amsterdam, speak their languages and can be trusted to provide a high end tour.
